# docmangp

Our passion is electronic document management.

One click user friendly software to save your practice time.

Let Docman GP ease your document management.

6,000 GP practices and 200,000 healthcare professionals use Docman GP.
We make their document management simple.

Typically saving practices over 7 hours a day, Docman enables you to quickly capture, file, workflow, view and process hospital letters efficiently.

Seamlessly integrated

Effortless communication
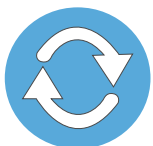

Centrally funded

Receive documents electronically from local hospitals for zero scanning and fast access to patient information.

Identifies Clinical Content by detecting patient and filing details to significantly improve speed and data quality.

Save each GP 15 minutes per day with Quick Steps that combine actions and workflows into one mouse click.

Manages practices completely from storing and retrieving all documents to digitally record fridge logs, assets, events and feedback.

Audit Trail

Audits Collaborations by enabling everyone to manage, share and discuss patient or practice matters.

docman
delivering paper free care

iWorkflow
With the power of one click, send documents around your practice to single or groups of Docman users in real time, with the ability to annotate, comment and add actions to patient documents.

Intellisense
Patient details in a document are highlighted and automatically populated into filing fields, in addition to speeding up summarising and Read Coding.

BackOffice
BackOffice Library will store all types of practice documents in one place for all Docman users to access, dependent on their security settings.
BackOffice Apps give you a way to store practice data such as fridge temperatures and significant events in different platforms.

Collaborator
A fully audited discussion platform for everyone to organise, manage, share and discuss patient or business matters.

EDT Connect
Receive letters electronically from local hospitals to remove the process of handling paper.

6000
practices use Docman GP

You take care of the patients.
We'll take care of the documents.

> " Docman provides the practice with a sophisticated document management service that allows us to provide excellent care to our patients. In addition they provide great support. "

Mark Taylor, IT Manager, Churchill Medical Centre

> " Docman helps to maximise QOF points whilst being intuitive and easy to operate. "

Ian Shepherd, Practice Manager, Oxshott Medical Practice

> " Docman just makes document management so simple and easy - it's a real time saver! "

Matthew Grant, Practice Manager, Forrest Medical Centre
