# Backing-up Docman made easy.

A secure and managed data back-up with **Docman Cloud Back-up**

Backing-up Docman made easy.

Docman Cloud Back-up provides Docman customers with a hosted back-up solution. This will give practices peace of mind that their data and documents are automatically backed-up to the cloud securely over N3, removing the need for local back-ups and tape drives.

With no changes to your Docman software, no hardware required for backing-up data and efficient Docman support, Docman Cloud Back-up will provide you with the knowledge that your documents and data are backed-up.

Peace of mind your information is backed-up

No need for tape back-ups

A secure, managed & monitored solution

No changes to Docman, the only difference is moving away from maintaining local hardware.

Save costs on purchasing and managing hardware by backing-up your data to the cloud.

The Docman Support Team will have easy access to backed-up documents to enable better support to practices.
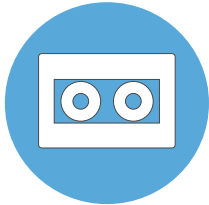

Have peace of mind that your documents will be automatically backed-up to the cloud.

# Docman Cloud Back-up provides one less thing to worry about.

Using Cloud Back-up will provide practices with **fully backed-up data** and documents, hosted by N3 the national broadband network used by the NHS, in a secure cloud environment. All of the data backed-up will also be **fully monitored** and supported to give you peace of mind.

Saving a copy of your data in the Cloud **won't make any changes** to your other Docman products or how you use it. Using Docman Cloud Back-up removes the need for any hardware previously used to back-up data.

Docman Cloud Back-up will also **reduce local infrastructure costs** for GP practices/CCGs/CSUs in England in addition to eliminating any previous reliance on local hardware for backing-up.

Backing-up your data with Docman Cloud Back-up will provide a **more efficient** service from the Support Team.

Managed by a team that hold IG Toolkit compliance at the highest level

Business Continuity in the event of a disaster with highly scalable architecture

Data is encrypted during transfer for security

Docman Cloud Back-up

Docman Cloud Back-up provides practices with a secure, N3 managed service for backing up their Docman documents and databases.

With no changes to your Docman software, no hardware required for backing-up data and efficient Docman support, Docman Cloud Back-up will bring complete peace of mind to backing-up your data.

To gain the benefits of Docman Cloud Back-up in your practice, contact your Regional Manager in the Sales Team by calling 01977 66 44 96 or send an email to sales@docman.com.
