BRINGING PAPER TO LIFE

When your scanner is connected, everyone is connected

RELIABLE NETWORK SCANNING

The Brother ADS-3000N offers true network capability, so business critical information can be sent directly to a desired network folder location, improving workflow efficiency and increasing productivity.

WIRED NETWORK

Offers true network scanning without having to log on to a central PC or install software at multiple location points. This allows for information to be shared across teams and departments with minimum user involvement.

FAST INPUT, RELIABLE OUTPUT

Uses a wider output tray to neatly capture paper fed through the ADF. Paper trays are angled to encounter less paper resistance so paper can glide easily and stack smoothly, reducing paper folds.

HIGH PRODUCTIVITY

Built for professional business usage with scan speeds of up to 50ppm (100ipm) and a large 50 sheet capacity document feeder. Plus, when connected via USB the ADS-3000N incorporates SuperSpeed USB 3.0 for rapid processing.

PRE-PROGRAMMED FUNCTIONS

Using programmable buttons, scanned documents can be sent instantly to pre-selected destinations for quick and simple scanning, saving time and staff training.

RANGE OF SCAN-TO FUNCTIONS

To support scanning across multiple business departments, the ADS-3000N scans to email, file, image, network, OCR software, SharePoint®, USB Host and FTP/SFTP.
